

Lake and Beach Committee

March 10, 2013

Present: Chuck Marsh, Bob Semian, Al Grabon, Michael McTierman, Joe Stack

Absent: Sam Martin, Gregg Slader

Guests: Rolland Grote, Chris Hartzel, Chris Borton

Fish

Bob gave a report on lake conditions. Then there was a discussion on the percentage of the types of fish to be ordered. At the end of this discussion no members changed their views and the percentage of types of fish will stay the same. The only change may be in the size of the bass to be ordered.

When Schultz's Farm opens in April we will firm up on size of the bass fish. We talked about if we need to have a Catch and Release program for this year and if we have the right ratio and type of fish in our lake for that type of project.

Boat Basin

Bob has all the hardware we need to assemble the docks at boat basin number two.

Picnic tables are ordered and the check is to be delivered on Tuesday, March 12. Delivery date to be determined at a later date.

Outdoor Grills have been approved for the Boat Basins and will be ordered. A question came up about how to secure the grills. We will concrete the grills in place at the different boat basins' locations.

Lake and Beach Committee
March 10, 2013

The Committee will coordinate with Joe Stack on a date to do the picnic tables, grills, ground rails, and the boat racks projects on the same weekend. We are looking for a date in early April.

Beach

Chris Hartzel talked about security patrols on the beach and lake. Chris took pictures for the patrol members' ID badges.

There was much discussion on what to do with the bulk head at the beach. Should we reverse-slope the sand? If we take out upper section of the bulk head, will we loose too much sand? Do we dig down to make the barriers level with the level of the water? Alex to give an estimate to reset the bulkhead to the level of the water. (See Chris Borton's reply.)

Discussion on types of sands for the beach use. Samples at next meeting.

Do we want to do a "Take a Kid Fishing Day" and maybe coordinate the fishing that day with the Community Connection Committee's agenda. Members to express their view and ideas at the next meeting.

Because of additional meetings of most of the members present, our meeting was closed a 12:20 P.M.
