

**Lake Meeting**  
**September 26, 2015**  
**9:00 AM**

**Present :** Al Grabon, Rolland Grote, Michael McTierman, Bob Semian, Butch Hollenback, Mike Mundy and Chuck Marsh

**Absent:** Tammy Martin, Christ Borton

Butch stated that only 2 survey sheets were turned in. We are considering putting a line item on the yearly PLA Census form to address this issue.

Fish shocking was brought up by Michael McTierman in order to have a more accurate count of the types of fish in our lake. Michael will research fish shocking and get back to us at the next meeting.

**Fish stock suggestions:**

- (1) 1,000 Blue Gills and 1250 Yellow Perch
  - (2) 500 Crappy, 1,000 perch and 550 Blue Gills
  - (3) 500 Crappy, 500 Blue Gills and 1,250 Yellow Perch
- After discussing three different fish stocking suggestions, the number three suggestion was picked with adjustments made for the tax to be paid on these fishes.

**Lake Meeting  
September 26, 2015  
9:00 AM**

**Geese**

Rolland talked about volunteers for next year to find and identify nesting areas for addling the eggs. He also inquired about using a drone to identify these nesting areas. We will look at the back North Shore area early in the year to see if we can access this area.

Our dam was inspected and a report is being written up.

Meeting adjourned at 10:21 AM
