Paupackan Lake Association
Election Committee, HC 1 Box 152
Hawley, PA 18428

Dear Election Committee,

Please accept my resume as interest in being considered for the upcoming election and position on the Board of Directors for Paupackan Lake Association.

I am a full-time resident of the community. My wife and I relocated to 224 W. Shore Dr. in March 2016 from Waverly, PA.

I am currently a business owner, providing general contracting services in Northeastern PA. My background and experience includes 26 years of Business Administration and most recently Vice President of Business Operations for Toyota of Scranton (TOS). Additional positions held included Chief Financial Officer and General Manager. TOS achieved 150 million in sales annually and operating expenses totaling 12 million. Strategic planning, auditing, financial analysis were a few of my responsibilities. Weekly, I would review staff performance and set goals and incentives to achieve goals set forth in the annual business plan.

My interest in a board position is to offer my personal and business experience to the association. I've always been one to volunteer and want to help out wherever possible.

My vision for the community is two-fold:

1. To improve communication channels between board members, committee chairs, and community members.
2. To assist the association in promoting the community and to offer my business experience to help with the areas of most concern. In addition to promoting the community and developing communication channels, I am interested in upholding the rules and regulations and holding members accountable.

Additionally, I would like to assist office staff with managing records and databases, and simplifying processes.

I look forward to the possibility of assisting the board with committee and association activities.

Thank you for your consideration.

Scott Schultz
