Mailing Address: 53 Winfield Circle, Sewell, NJ 08080-3609

Email: BillFisherPLA@yahoo.com

Please accept Bill Fisher, also known as William L. Fisher, as a candidate for the Board of Directors of PLA. Please list my name as a candidate for the Paupackan Lake Association, Inc.

Statements of candidacy

Bill Fisher

Paupackan Lake is the great place that it is because of the volunteers who actively support the community and Association. Although weekenders, my wife Karen and I are wholly committed to the success of the community. My nature is to get involved for the betterment of all. My volunteer experiences include many years of volunteering for church, community organizations and locally with other lake members (cleanup, pathway clearing, helping build the pavilion and other tasks). I request your vote, so I may further serve the community as a member of the Board of Directors.

I bring to the Paupackan Lake Association significant skills in finance, organization and project governance, plus enthusiasm for making the lake community even better. My wife, two daughters and I have owned a house here for 8 years and have seen the growth, development, and maturing of the community. I retired from a computer company with 31 years of experience in software consulting and project management. I currently work for one of the largest US banks, managing IT operations. I use my business experience and training every day to ensure that the computers are doing what the business needs. If elected, I could use these same skills for the selection and prioritization of projects for the Paupackan Lake Association. Using my project management skills, I would ensure that the selected projects are brought in "on time and under budget." With my financial skills, I would work to preserve the Paupackan Lake Association's financial stability. My consulting skillset would ensure focus on open communication between the Board and the community, plus accountability of the Board to the community it serves.

Thank you for considering me for the Paupackan Lake Association Board of Directors. I would be honored to represent you.
